

Dipole's RFID labels for logistics are manufactured in a variety of materials. All of them are printable with RFID printers from any brand.

The Logistics RFID Labels are a family of labels with a variety of sizes and materials specifically designed for logistics environments, product identification, or pallets. Thanks to our personalized service, we can adapt to specific needs with smaller sizes like 100×50 mm or larger sizes like 148×210 mm. They are also

customizable in various features such as EPC memory or adhesive. They comply with international global standards.

Product benefits

- Possibility of tracking the product
- Fully customizable
- Easy to use and application
- Worldwide delivery

01

The applications and preferred uses of RFID tags are:

- Pellets, palots and boxes
- Logistics processes
- Industrial processes
- Plastic containers
